The information presented in this document is an analysis and summary of data provided to the New Mexico Public Education Department's Data Collection and Reporting Bureau by other organizations. While the bureau monitors incoming data for completeness, the extent to which conclusions and generalizations can be drawn is dependent upon the accuracy of the information submitted.

EXECUTIVE SUMMARY

The New Mexico Dropout Report is published annually to provide information for educators, parents, legislators, and other interested parties on the status of education in New Mexico. This report provides information on the numbers and percentages of dropouts by subgroups tracked by the Federal Department of Education. It also includes information about the students' reasons for dropping out of school. For the past ten years, the Public Education Department has worked cooperatively with the National Center for Education Statistics (NCES) to establish national definitions and formulas that make dropout data collection comparable across states. The laborious task of establishing national standards requires the continual assessment and updating of procedures and methodologies to ensure consistent and reliable dropout data. The information provided in this report is generated using the methodology prescribed by NCES.

With the advent of PED's Student Teacher Accountability Reporting System (STARS), a minimal amount of student demographic data was required in the data collection from the districts. The other demographic data was obtained from Student Snapshot and Membership records stored in STARS.

OVERALL DROPOUT RATE - FOR THE LAST FIVE YEARS

The overall statewide dropout rate increased from the previous school year (SY06) by .8 of one percent. The number of dropouts reported for the previous school year (SY06) was 5,493; 6,612 dropouts were reported for school year (SY07), an increase of 1,119.

SY03	SY04	SY05	SY06	SY07
2002-2003	2003-2004	2004-2005	2005-2006	2006-2007
3.3	3.7	3.7	3.6	4.4

DROPOUT RATE BY GRADE LEVEL - FOR THE LAST FIVE YEARS

The dropout rate by grade level increased for each grade for the reporting school year (SY07) in comparison to the previous school year (SY06). The increases were higher for grades 9-12 than for grades 7-8. Note: The dropout rate either stayed the same or decreased from SY05 to SY06. Grade 10 continues to have the highest dropout rate.

	SY03	SY04	SY05	SY06	SY07
GRADE	2002-2003	2003-2004	2004-2005	2005-2006	2006-2007

INTRODUCTION

The *New Mexico Dropout Report* is published yearly to provide educators, parents, legislators, and others interested in the status of education in New Mexico with information concerning who drops out of school and why. The data used in this study are collected and analyzed using a nationally standardized methodology as prescribed by the National Center for Educational Statistics (NCES) of the United States Department of Education.

Schools in New Mexico are actively pursuing programs and strategies to meet the needs of at-risk students. Several school districts have also established agreements with outside agencies to jointly provide for the educational and social needs of students who are at risk of dropping out. However, New Mexico schools continue to be challenged in obtaining the resources required to meet the needs of at-risk students. The 1997 legislature revised the State Equalization Guaranteed funding formula to include an at-risk factor as part of the formula calculation to assist in addressing the needs of these students.

METHODOLOGY

Dropout rates are computed using the federal NCES Common Core of Data (CCD) dropout statistical procedures. CCD dropout statistics report the number of students dropping out in a given school year. Ungraded dropouts (grade level is unavailable) will be reported with the grade most appropriate to their age. Dropouts are reported at the local education agency or school district level. Student membership is reported at the School, District, and State Level: the number of pupils in each of several categories from grades pre-kindergarten (preK) through twelve (12) and ungraded. For purposes of computing dropout rates, the state will indicate the proportion of ungraded pupils to be assigned to each of grades seven through twelve. In a state not reporting this information, ungraded pupils are distributed equally across the fourteen grades, pre-kindergarten through twelve.

A student is considered a dropout if he or she was enrolled at any time during the previous school year, is not enrolled at the beginning of the current school year, and does not meet certain exclusionary conditions. This means that:

Students dropping out during the regular school term in year one, who are not in membership on October 1 of year two, are reported as year one dropouts on the CCD report in year two. For example, a student dropping out of tenth grade in March 2007, who is not in membership (enrolled) on October 1, 2007, is a 2006-2007 tenth grade dropout. Students completing the regular term in year one, who do not return at any time during year two and who are not in membership on October 1 of year three, are reported as year two dropouts on the CCD report in year three. For example, a tenth grade student who attended the entire 2005-2006 school term, was promoted to the eleventh grade, but did not enroll in the 2006-2007 school year, and was not in membership on October 1, 2007, is a 2006-2007 eleventh grade dropout.

Collection of the Data:

A variety of sources were utilized to collect the data:

- Each District identified their dropouts and submitted this data to PED via a secure file transfer. Although, data from State Supported Schools was submitted to PED, it is not included in this report.
- The Learning and Accountability Division supplied data related to students that took and/or passed the GED.
- The Information Technology Division supplied data on Home Schooled students.
- The Information Technology Division supplied student membership and demographic data from the Student Teacher Accountability and Reporting System (STARS). Demographic data from STARS that was invalid, missing, or not reported was identified as “unknown”.

Processing of the Data:

The first step of processing the data is to remove from the list students who were identified as dropouts that meet any one of the following criteria:

CRITERIA	MEASURE
Passed the GED.	Based on matching Date-of-Birth, First Name and Last Name.
Home Schooled.	Based on matching District Code, First Name and Last Name.
Duplicates within a District.	Based on matching Student ID, District. Code and the Last Date Attended.
Duplicates across Districts.	Based on matching Student ID, District. Code and the Last Date Attended.
Enrolled in a different District at the End-of-the-Year	Based on matching Student ID and Gender.
Enrolled in a different District at 40 th Day of the following School Year.	Based on matching Student ID and Gender.

Summary of Data Collection Method

To collect the data used to prepare the 2006-2007 Dropout Report, districts downloaded the data collection application with instructions via the PED website. Districts then sent information back in an Excel file via a secured file transfer process. Schools with students enrolled in grades seven and higher provided dropout information to districts for compilation. Between November 2007 and January 2008, district administrators reported the data for their respective schools to PED. Charter Schools were instructed to submit their data to their corresponding districts. The information presented in this report also includes data from prior years' surveys. Statewide summary data by ethnicity, gender, and grade level can be found in various graphs and tables within the report. Although dropout data collection through the NCES Common Core of Data process is designed to provide consistency, the information in this study is based on school district or charter school records for New Mexico. Readers and users of this report are reminded that the numbers gathered by the survey from the schools are self-reported data. The accuracy of the data is dependent upon the precision of local record keeping and reporting practices.

Data Collection Categories:

The following **racial/ethnic** categories are used to describe membership groups. The reader is cautioned that ethnicity is a self reported or observed classification and not an exact description.

- American Indian /Alaskan Native (I)
- Asian /Pacific Islander (A)
- Black, Non Hispanic (B)
- Caucasian, Non Hispanic (C)
- Hispanic (H)
- Unknown (U)

Dropout rates are considered by many as an indicator of educational success for individual schools and/or school districts. States are ranked nationally on the basis of student dropout status information compiled locally. This section provides statistics on the “**dropout reasons**” that students leave school.

In New Mexico, dropout information is self-reported. When students are preparing to leave school, they are usually questioned by school authorities about their reason(s) for doing so. This information is recorded on transfer sheets, stored, and later compiled for district use and for state and federal level reporting. When students leave school without notification or official permission, records are completed by school personnel. In many of these cases, accurate information about leaving school is not available. Although attempts are made to locate students, neither the time nor the resources are available with which to follow up on every student dropout.

- Invalid transfer, no transcript requested (01)
- Lack of interest (02)
- Did not reenroll, no transcripts requested (03)
- Intends to take GED (04)
- Suspended, did not return (05)
- Expelled, did not return (06)
- Pregnancy, unable to return (07)
- Unable to adjust (08)
- Left school to work (09)
- Failing, unable to complete work (10)
- Parental request (11)
- Child care problems (12)
- Runaway, unable to locate (13)
- Married and left school (14)
- Illness (15)
- Other (unknown) (16)

Dropout Calculation Methods

The formula used to calculate the student dropout rates for school years on and after 1992-1993 are based on the NCES Model, which follows:

$$\text{Dropout Rate} = \text{Number of Dropouts divided by } 40^{\text{th}} \text{ Day Membership times } 100$$

To calculate the 2006-2007 dropout rate of 4.4 % see the following:

$$4.4 = 6,612 / 150,854 * 100$$

6,612 is the total number of Dropouts reported by Public School Districts & Charter Schools

150,854 is the total number of students in Grades 07 - 12 for the Public School Districts & Charter Schools

2006-2007 NEW MEXICO STUDENT DROPOUT INFORMATION

It is crucial that the reader understands the meaning of each of the items within the following table to properly interpret the findings and results reported in this report.

Table Header	Table Header Meaning
MEM #	Corresponds to the Membership (Enrollment) Count associated with the respective reporting category. For example using "Rates By Grade" for Grade 07 = Membership Count was 25, 046 students statewide. In other words, there are 25,046 seventh graders in the membership (enrolled) for this reporting category.
DROP #	Corresponds to the Number of Dropouts associated with the respective reporting category. (This includes the number of "Transition Year" Dropouts reported by 34 districts for 2007). For example using "Rates By Grade" for Grade 07 = Number of Dropouts was 353 statewide. In other words, there are 353 seventh graders that dropped out for this reporting category.
MEM %	Corresponds to the Membership Percentage related to the total Membership associated with the respective reporting category. For example using "Rates By Grade" for Grade 07 = Membership Percentage is 16.6% (Membership Count {25,046} divided by the Total Membership of Grades 07-12 {150,854} times 100, rounded to one decimal. In other words, seventh graders represent 16.6% of the total membership for this reporting category of the seventh through twelfth graders.
DROP %	Corresponds to the Dropout Percentage related to the total Dropouts associated with the respective reporting category. For example using "Rates By Grade" for Grade 07 = Dropout Percentage is 5.3% (Number of Dropouts {353} divided by the total Number of Dropouts of Grades 07-12 {6,612} times 100, rounded to one decimal. In other words, seventh graders represent 5.3% of the total number of dropouts for this reporting category of seventh graders.
RATE	Corresponds to the Rate related to the respective reporting category. For example using "Rates By Grade" for Grade 07 = Grade Rate is 1.4 (Number of Dropouts {353} divided by the Membership Count for Grade 07 {25,046} times 100, rounded to one decimal. In other words, seventh graders represent a 1.4 rate of dropouts for this reporting category of seventh graders.

APPENDIX A --- Definitions

TERM	DEFINITION
40th Day Membership	The 40 th day associated with the start of the School Year for a particular school. The actual 40 th day will vary from school to school.
Dropout	<p>For the purpose of maintaining consistency, NCES defines a dropout as an individual who:</p> <ul style="list-style-type: none"> • Was enrolled in school at some time during the previous school year; • Was not enrolled at the beginning of the current year; • Has not graduated from high school or completed a state- or district-approved educational program, and • Does not meet any of the exclusionary conditions: <ul style="list-style-type: none"> ○ Transfer to another public school, private school, or state- or district-approved education program. ○ Temporary absence due to suspension, illness, or death. <p>Also see “Further Definition of a Dropout” which follows this section.</p>
Dropout Rate By English Language Learner (ELL)	Number of Dropouts by ELL divided by 40 th Day Membership for each ELL, multiplied by 100 and then rounded to one decimal.
Dropout Rate By English Proficiency	Number of Dropouts by English Proficiency divided by 40 th Day Membership for each English Proficiency, multiplied by 100 and then rounded to one decimal.
Dropout Rate By Ethnicity	Number of Dropouts by Ethnicity divided by 40 th Day Membership for each Ethnicity, multiplied by 100 and then rounded to one decimal.
Dropout Rate By Food Program Participation	Number of Dropouts by Food Program Participation divided by 40 th Day Membership for each Food Program Participation, multiplied by 100 and then rounded to one decimal.
Dropout Rate By Grade	Number of Dropouts by Grade divided by 40 th Day Membership for each Grade, multiplied by 100 and then rounded to one decimal.
Dropout Rate By Gender	Number of Dropouts by Gender divided by 40 th Day Membership for each Gender, multiplied by 100 and then rounded to one decimal.
Dropout Rate By Homeless Status	Number of Dropouts by Homeless Status divided by 40 th Day Membership for each Homeless Status, multiplied by 100 and then rounded to one decimal.
Dropout Rate By Migrant Status	Number of Dropouts by Migrant Status divided by 40 th Day Membership for each Migrant Status, multiplied by 100 and then rounded to one decimal.
Dropout Rate Overall	Number of Dropouts divided by 40 th Day Membership, multiplied by 100 and then rounded to one decimal.
Dropout Rate By School Type	Number of Dropouts by School Type divided by 40 th Day Membership for each School Type, multiplied by 100 and then rounded to one decimal.
GED	General Education Diploma
Home Schooled	The practice of obtaining an education at home.

Membership	The membership count defines the pool of students from which dropouts can occur. For the National Center for Education Statistics (NCES) Common Core of Data (CCD) purposes, membership is defined as “the count of students on current roll on October 1 or the school day closest to October 1.” In the case of New Mexico, the official 40 th day enrollment count for each district, which usually occurs sometime during the month of October, is used. CCD directions state that the current enrollment can be arrived at by: Taking the sum of original student entries and reentries, and subtracting total student withdrawals; or Taking the sum of total students present and total students absent.
Methodology	A body of practices, procedures and rules used within a discipline in the formation of knowledge.
STARS	Student Teacher Accountability and Reporting System is a web-hosted warehouse of snapshots of data using predefined templates.
Trans Year Dropout	Students who left school during the summer between mid high and high school.

Further Definition of a Dropout

The following list of questions is designed to clarify who is and who is not considered a dropout:			
A Student who:	Is a Dropout?		
1. Graduated or received some other credential, such as certificate of attendance or GED	NO		
2. Only attended summer school in this school district (was not enrolled during the regular school year)	NO		
3. Left school without a diploma or other certification after passing age up to which the district must provide free public education			.YES
4. Died.	NO		
5. Has not graduated, completed an approved program, or died and educational status subsequent to leaving school is unknown			YES
6. Moved to another district in this or some other state, not known to be in school			YES
7. Moved out of the United States, enrollment status not known	NO		
8. Transferred to and is in membership in:
