

**Approved Start-Up Years for All New Mexico Charter Schools
(NM Charter School law enacted effective July 1, 1999 and current as of February 15, 2010)**

No more than 75 charters may open within a five year period. Below is a list of charters that have opened in the designated 5-year period. If the charters are locally chartered they are not their own LEA's, the school district is; if the charters are state chartered, then they are their own LEA's. Below, the **authorizer's are listed in red**. The New Mexico Public Education Commission (PEC) serves as the authorizing agent for state chartered charter schools in New Mexico.

2009-2010 School Year = 81 OPEN and 8 CLOSED
